The FNR has developed various thematic and structural funding instruments to support research projects in priority areas for Luxembourg and to strengthen the exchange between science and society. In the framework of these programmes, calls for project proposals are issued regularly. Retained projects will be partly or completely funded by the FNR.
Research Project Funding

CORE
The main FNR programme for funding of high-quality research projects in five priority domains: Innovation in Services, Sustainable Resources Management, Material Sciences, Biomedical and Health Sciences, Societal Challenges. The programme is dedicated to established and starting Principle Investigators.
